## Ref-023 Fire Safety Equipment Cabinet (5-Piece Set)

8490

The module size is 1200mm.

Unloading ports, firefighting equipment, and meters are grouped at 1200mm; firefighting sand is at 1650mm (dimensions can be adjusted for special circumstances).

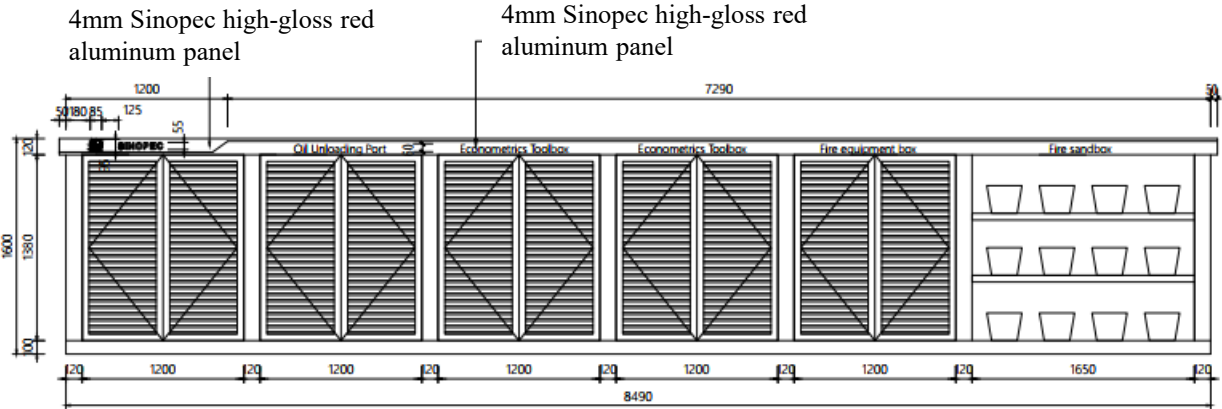

The top signage uses aluminum-plastic film (modular process).

All shutter doors are painted gray aluminum alloy louver shutters.

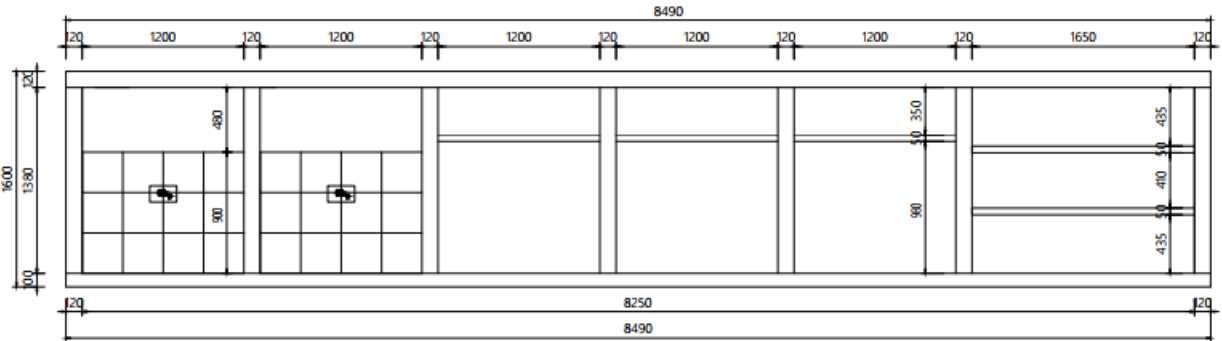

Other areas are painted with stone texture.

The bottom slope is removed.
