

Ref-012 Fuel Grade Indicator Lightbox on Column

Lightbox frame made of aluminum alloy; color and basic requirements as shown in the drawing.
LED light source inside the lightbox, color temperature 6500K.
Fuel numbers are covered with special films.

Ref-012 Fuel Grade Indicator Lightbox on Column

Fuel product numbers and sequence are arranged as shown in the diagram.
The installation height is based on the highest fuel island, with the mounting position at 2600mm from the bottom of the lightbox.
Fuel product fonts use the Futura series.

The numbers correspond to the overall diagram and match on both sides of the lightbox.
The lightbox display of fuel products must correspond to the actual fuel products at the station.
The special length lightboxes are designed individually.
